In as much as we encourage parents to pay the complete school fees, we are also aware of the economic hardship which can be a constraint to the one-off payment option. We are very grateful to all parents that filled and returned the forms issued to that effect.

LONG VACATION PROGRAMME

We encourage parents to enroll our students for **productive** long vacation programme. Skills/entrepreneurial training programme will NOT be a bad idea. We also encourage parents to source for good private teachers that would teach and engage the students in their areas of weakness during the holiday.

LONG VACATION SCHEME OF WORK

Parents/ students can download or print the topics per subject to be covered during the long vacation. The scheme of work also contains practice questions. Students are expected to thoroughly read and make simple notes on the topics, because welcome test will focus on each of the topics.

UNIFORM

Parents are advised to co-operate with the school in ensuring that students dress properly in school and even at home in line with our moral training. Parents are therefore expected to replace the female skirts that are above the knee and the male pencil trousers. We do not allow fitted-wears for both boys and girls. Parents should please ensure that all students' wears have their names stitched on. Stitching of names on uniforms include all inner wears. Our students know the correct specifications.

The correct shoes for classes are any pair of black shoes with flat sole, **complete-cover**, not semi-covered shoes, while brown sandals are the correct shoes for compound wear. Visit our website to see samples of shoes.

Every student is required to resume with the following implement for compound cleaning:

- ✓ two (2) brooms,
- ✓ a hoe and
- ✓ a 'langa-langa' cutlass.

STRICTLY FOR ALL MALE STUDENT

All male students are to resume with very low haircut and no pencil trousers. Only JIC uniform material is acceptable.

CALL FOR CONCERN

We admonish our dear parents to complement the school effort by not relenting in talking to the students on the need for them to always be at their best behavior, in and outside the school. The need to shun social vices such as stealing, extortion, bullying, ungodly relationships, etc, should be emphasized. Parents should preach the need for students to genuinely love one another. Let the children see and realize the need to bring laurels home and not shame as a result of suspension or expulsion from school. The college has, to this effect, started the "Discipleship" training for all the students. We will be happy if you can find out how the children perceive this moral training programme.

We request parents to closely monitor the activities of their children while at home. There are a lot of influences outside the school that are capable of neutralizing the effort of the school in building God fearing children and damping the pride of parents for not having God fearing children.

Please be informed that henceforth, the school will start publishing names of students that break the school rules and regulations in the school newsletters. Kindly admonish your child to avoid having his/her name in the newsletter for negative reasons.
